## ABOUT ME

Currently pursuing a B.Tech in Information Technology at Maharaja Agrasen Institute of Technology, supported by a strong foundation from a three-year Diploma in Automobile Engineering. This unique academic journey has equipped me with a blend of deep analytical thinking and practical problem-solving skills. I am highly adaptable, passionate about building scalable full-stack web applications, and eager to contribute my technical knowledge and creativity to a dynamic professional environment.

## EDUCATION

### Bachelor of Technology (B.Tech) in Information Technology

*Maharaja Agrasen Institute of Technology*

Currently i am doing Bachelor of Technology (B.Tech) in information Technology from Maharaja Agrasen Institute of Technology (MAIT), Delhi Lateral Entry Admitted to 2nd Year in B.tech.

### Complete Diploma in Automobile Engineering

*PUSA INSTITUTE OF TECHNOLOGY*

Completed a three-year Diploma in Automobile Engineering focused on automotive systems, vehicle dynamics, engine technology, and mechanical design. Gained hands-on experience through lab sessions, workshops, in areas such as engine maintenance, transmission systems, and vehicle servicing. Participated in technical projects and seminars that enhanced practical understanding of automobile performance, safety.

### Complete seniorsecondary

*B.D.S.S.School*

Completed 12th grade from NIOS Board

### Complete matriculation

*G.M.S.B.School*

Completed 10th grade from CBSE Board

## PROJECTS

### ShopVerse — Full-Stack E-Commerce Platform

Tech Stack: HTML, CSS, JavaScript, Google Cloud Run

- Developed a comprehensive e-commerce platform with robust seller registration and user authentication.
- Implemented dynamic product listings, a fully functional shopping cart, and a seamless checkout experience.
- Deployed the application live on Google Cloud Run, ensuring high availability, speed, and scalability.

### EcoTrack — Carbon Footprint Awareness

Tech Stack: HTML, CSS, JavaScript, Google Cloud, AI Integration

- Engineered an interactive, AI-driven platform designed to track and analyze personal carbon footprints.
- Integrated data visualization modules to help users clearly understand and reduce their environmental impact.
- Hosted the application on Google Cloud, optimizing performance and user responsiveness.

**VoiceBox — Smart Bill Scanner & Payment App**

Tech Stack: JavaScript, Web APIs, Voice Recognition

- Built an innovative web application capable of scanning bills and processing smart payments efficiently.
- Integrated voice interaction features to streamline the user experience and enhance platform accessibility.
- Deployed the application on Vercel with a clean, mobile-responsive user interface and fast load times.

**Air Compressor Maintenance**

*Pusa Institute of Technology*

Studied working principles and performed maintenance analysis of air compressors. Gained hands-on experience in fault detection and preventive maintenance techniques. Conducted practical study on compressor maintenance, including inspection, servicing, and performance testing.

**EXPERIENCE**

---

**Internship Experience**

*Jeep Landmark (Lifestyle Cars Pvt. Ltd.)*

- Assisted in vehicle servicing, inspection, and maintenance tasks.
- Gained practical knowledge of automobile systems and workshop operations.
- Observed the workflow of customer vehicle management, job card creation, and workshop coordination.

**AutoCAD design 2D&3D Course**

*SARVODAYA COMPUTER & MANAGEMENT INSTITUTE*

Completed a 90-day hands-on course in 2D drafting and 3D modeling using AutoCAD. Worked on practical design projects to develop technical drawing and visualization skills. Gained proficiency in dimensioning, modeling, and rendering tools used in engineering design.

**CERTIFICATIONS & ACHIEVEMENTS**

---

**Google Arcade 2026**

*Google Cloud*

Actively participating in the Google Arcade 2026 program. Engaged in hands-on challenges and developing practical expertise in Google Cloud Platform (GCP), AI, and data analytics.

**Google Cloud Skill Badges**

*Google Cloud Platform*

Earned multiple Google Cloud Skill Badges, demonstrating hands-on ability to deploy, manage, and scale applications and infrastructure using Google Cloud technologies.

**SKILLS**
